Professional Summary

Full-Stack Developer skilled in React.js, Node.js, Express.js, and PostgreSQL, with a strong passion for building secure, scalable, and user-centric web applications. Experienced in developing real-world platforms like assignment marketplaces and journaling apps, with a focus on clean UI, performance optimization, and secure authentication.

Education

Integral University <i>B.Tech in Computer Science, 8.1 CGPA</i> Lucknow, UP	Oct. 2023 – Sep. 2027	La Martiniere College <i>Higher Secondary Education, 8.3 CGPA</i> Lucknow, UP	April 2023
--	------------------------------	--	-------------------

Experience

Full Stack Java Development Intern July 2026 – Dec 2026

ExcelR

- Full Stack Java Development Intern in a 5-month industry-oriented internship program covering Java, Spring Boot, REST APIs, SQL, and React
- Program includes building full-stack applications with OOP principles, database design, and backend API development.

Python Data Science Intern Jun. 2026 – Jul. 2026

ETrain

- Analyzed e-commerce sales data using Python to identify festive-season purchasing trends through data cleaning, exploratory data analysis (EDA), and visualization.
- Utilized Pandas, NumPy, Matplotlib, and Seaborn to generate business insights while collaborating with a 5-member team to organize datasets, interpret findings, and present results.

Projects

Writify : University Student Assignment Platform | *React, TypeScript, Node.js, PostgreSQL* | [Live Link](#) April 2024

- Developed Google OAuth authentication with secure session management for 100% verified student logins.
- Implemented JWT authentication and PostgreSQL for secure user management, session persistence, and 200+ database transactions per week.
- Optimized assignment, feedback, and profile workflows, reducing project completion time by up to 8 hours weekly.

Jamā'ah Journal: Multi-Faith Prayer & Reflection Tracker | *React, Firebase, TailwindCSS* | [Live Link](#) August 2025

- Built a scalable React PWA serving 100+ users with prayer tracking, streak analytics, and a dynamic calendar interface.
- Implemented privacy controls and a visibility-based leaderboard, increasing user engagement by 40%.
- Developed a responsive PWA with offline support, install-to-device, and update features, improving mobile user retention by 30%.

Technical Skills

Languages: Python, Java, C/C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Version Control with Git, PostgreSQL, Postman, Deployment & Hosting

Technologies/Frameworks: Linux, ReactJS, REST API, GitHub, ExpressJS, Tailwind CSS

Leadership / Extracurricular

Coordinator, Fiesta — Integral University, Lucknow Feb 2025

- Coordinated multiple technical events, including a Hackathon, managing planning, execution, and event operations.
- Increased event participation by 30% through strategic planning and social media outreach.

Website Management Team — Integral University, Lucknow Feb 2025

- Maintained the annual fest website by updating event information, testing user workflows, and resolving technical issues.
- Supported online registrations for 300+ students over a 3-day event.

Hackathon Participant — IIT Kanpur Aug 2024

- Collaborated with a team of four to develop a blockchain-based decentralized credential verification system during a 12-hour hackathon.
